Work Experience

- 2015 **Apple Inc.**
User Interface Designer
- 2014 **Apple Inc.**
Human-Interface Design Intern

Created high fidelity design proposals for Pages, Numbers and Keynote. Collaborated with engineers, visual designers and marketing to design features to accommodate all platforms: Mac, iOS and web.
- 2013 **Palantir Technologies**
Product Design Intern

Developed the initial concept for Report, the web authoring application with Palantir Metropolis. Report allows users to create, arrange, and label data visualizations into an interactive dashboard on an infinite vertical canvas.
- 2012 **Workday Inc.**
User Experience Design Intern

Designed a high contrast style guide for accessibility mode, mobile billing and time tracking, and LinkedIn integration into Workday software. Conducted competitive analyses of other applications and assisted with user research.
- 2012 **Origami Robotics**
Design Researcher & Visual Designer

Conducted contextual inquiries with clinicians, parents and teachers of children with mental and physical disabilities for Romibo, a low-cost social therapy robot. Proposed behaviors for Romibo that are beneficial for social robot therapy. Designed packaging, NSF posters and research booklets to relay findings.
